

PET-G Carbon SAFETY DATA SHEET

1. Hazards identification

1.1 *Classification of the substance or mixture*
According to Regulation (EC) No 1272/2008 [CLP]
This mixture is classified as not hazardous.

1.2 *Label elements*
Labelling (CLP)
Hazard statements: not applicable
Safety precautions: not applicable

1.3 *Other hazards*
Not known

2. Composition/information on ingredients

2.1 *Mixtures*
None of the substances, named in the Candidate list art. 59 (1,10) of the REACH regulation EC no. 1907/2006 has been used in a concentration > 0,1%.

3. First aid measures

3.1 *Description of first aid measures*

General information: Immediately remove any contaminated clothing, shoes or stockings.
After inhalation: Provide fresh air. Seek medical attention if needed.
In case of skin contact: The melted product can cause severe burns.
Do not attempt to remove molten product, or molten product that has cooled, from skin without medical assistance.
After contact with molten product, cool skin area rapidly with cold water.
Consult physician.
After eye contact: IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
Consult an eye specialist in the event of irritation.
After swallowing: Rinse mouth with water. Induce vomiting immediately and call a physician. If a person vomits when lying on his back, place him in the recovery position.

3.2 *Most important symptoms and effects, both acute and delayed*
No data available

3.3 *Indication of any immediate medical attention and special treatment needed*
Treat symptomatically

4. Fire fighting measures

4.1 *Extinguishing media*
Suitable extinguishing media:
Water spray, Foam, Dry powder, Carbon dioxide (CO₂).
Unsuitable extinguishing media:
Do not use a solid water stream as it may scatter and spread fire.

4.2 *Special hazards arising from the substance or mixture*

Not available

4.3 *Advice for fire fighters*

Fire fighting measures

Wear a self-contained breathing apparatus and chemical protective clothing. Avoid inhalation of materials or combustion by-products.

Unusual Fire Hazards:

Do not allow fire water to penetrate into surface or ground water. Fire residuals and contaminated extinguishing water must be disposed of in accordance with the regulations of the local authorities.

5. Accidental release measures

5.1 *Personal precautions, protective equipment and emergency procedures*

Avoid dust formation. Avoid breathing dust. Ensure adequate ventilation, especially in confined areas.

5.2 *Environmental precautions*

Do not allow to penetrate into soil, waterbodies or drains.

5.3 *Methods and materials for containment and cleaning up*

Use mechanical handling equipment. Keep in suitable, closed containers for disposal. Clean contaminated surface thoroughly.

6. Handling and storage

6.1 *Handling*

Advices on safe handling:

Provide adequate ventilation, and local exhaust as needed. Do not breathe dust. Avoid dust formation.

In the case of the formation of dust: Withdraw by suction.

Molten material: Avoid contact with the substance.

Precautions against fire and explosion:

In case of dust formation (Fine dust): May form explosible dust-air mixture if dispersed.

Take precautionary measures against static discharge. Keep away from sources of ignition.

Use grounding equipment. Use explosion-proof equipment and non-sparking tools/utensils.

6.2 *Conditions for safe storage, including any incompatibilities*

Requirements for storerooms and containers:

Store in a well-ventilated place. Keep container tightly closed.

Protect against heat /sun rays. Protect from moisture contamination.

Keep away from oxidising agents and strongly acid or

alkaline materials. Keep away from food, drink and animal feedingstuffs

7. Exposure controls/personal protection

7.1 *Control parameters*

Dnel:

Dnel/Dmel- values are not available.

PNEC:

PNEC- values are not available.

7.2 Exposure controls

Provide good ventilation in the work area. Additional controls are not normally necessary when handling the polymer.

Thermal extrusion: Provide local exhaust ventilation to ensure that the workplace exposure limit is not exceeded.

Use of respiratory protection may be necessary during maintenance activities.

Personal protection equipment

Occupational exposure controls

Respiratory protection:

In case of dust formation:

Use filter type A-P2 according to EN 143.

Hand protection:

Protective gloves according to EN 374.

Protective gloves made of fabric or leather.

Observe glove manufacturer's instructions concerning penetrability and breakthrough time.

In case of melting: Impervious heat protective gloves according to EN 407

Glove material: Leather

Observe glove manufacturer's instructions concerning penetrability and breakthrough time.

Eye protection:

Tightly sealed goggles according to EN 166.

Body protection:

Wear suitable protective clothing. Boots or safety shoes

General protection and hygiene measures:

Do not breathe dust.

Take off contaminated clothing and wash it before reuse.

When using do not eat, drink or smoke. Wash hands before breaks and after work.

When handling large quantities, supply emergency spray.

In case of dust formation: Particular danger of slipping on spilled product on the ground.

8. Physical and chemical properties

8.1 Information on basic physical and chemical properties

Appearance:	Solid Filament
Odour:	weak
Colour:	depending on product grade
Odour threshold:	No information available
pH:	Not applicable
Melting/freezing point:	200-220 °C
Initial boiling point and boiling range:	Not applicable
Flash point:	Not applicable
Evaporation rate:	Not applicable
Flammability (solid, gas):	No information available
Upper/lower flammability or explosive limits:	UEL: No data available LEL: No data available
Vapour pressure:	Not applicable
Vapour density:	Not applicable
Relative density:	Not measured
Solubility(ies):	Insoluble in water, soluble in THF, acetone or other solvents.
Partition coefficient (n-octanol/water):	Not available
Auto-ignition temperature:	not self-igniting
Decomposition temperature:	>=280°C
Viscosity:	Not applicable
Explosive properties:	No data available
Oxidizing properties:	No data available

9. Stability

9.1 Reactivity:

No information available

9.2 Chemical stability:

Stable under recommended storage conditions.

9.3 Possibility of hazardous reactions:

In case of dust (Fine dust): May form explosible dust-air mixture if dispersed.

9.4 Conditions to avoid:

Avoid elevated temperatures for prolonged periods of time. Take precautionary measures against static discharges.

9.5 Incompatible materials:

Strong oxidizing materials.

9.6 Hazardous decomposition products

Build-up of dangerous/toxic fumes possible in cases of fire/high temperature.

10. Toxicological information

10.1 Information on toxicological effects

Toxicological effects:

Acute toxicity (oral):	Not applicable
Acute toxicity (dermal):	Not applicable
Acute toxicity (inhalative):	Not applicable
Skin corrosion/irritation:	Not irritating.
Eye damage/irritation:	Lack of data. May cause irritations.
Sensitisation to the respiratory tract:	No sensitization
Skin sensitisation:	No sensitization
Dust:	Can cause skin, eye and respiratory tract irritation.
Processing, thermal hazards:	Vapours: Can cause skin, eye and respiratory tract irritation.

Germ cell mutagenicity/Genotoxicity:

	Lack of data. Not to be expected
Carcinogenicity:	Lack of data. Not to be expected
Reproductive toxicity:	Lack of data. Not to be expected
Effects on or via lactation:	Lack of data.
Specific target organ toxicity (single exposure):	Lack of data.
Dusts:	Irritating to eyes, respiratory system and skin.
Specific target organ toxicity (repeated exposure):	Lack of data.
Aspiration hazard:	Lack of data.

Symptoms

Dust:	Skin irritation, eye irritations and redness The melted product can cause severe burns.
-------	--

11. Ecological information

11.1 Toxicity

No relevant information available.

11.2 Persistence and degradability

Difficult to degrade

11.3 Bioaccumulative potential

To avoid bioaccumulation plastics should not be disposed in the sea or in other water environments.

11.4 Mobility in soil

No data available

11.5 Results of PBT and vPvB assessment

This substance does not meet the PBT/vPvB criteria of REACH, annex XIII.

11.6 Other adverse effects

General information:

Do not allow to enter into ground-water, surface water or drains.

12. Disposal considerations

12.1 Waste treatment methods

Contaminated packaging

Recommendation: Dispose of waste according to applicable legislation.
Non-contaminated packages may be recycled.

13. Transport information

Product has been classified as being non-dangerous substance according to transport regulations ADR, RID, IMDG, IATA/DGR

13.1 UN number

Not applicable

13.2 UN proper shipping name

Not applicable

13.3 Transport hazard class(es)

Not applicable

13.4 Packing Group

Not applicable

13.5 Environmental hazards

No additional data is available

13.6 Special precautions for user

No data available

13.7 Transport in bulk according to Annex II of MARPOL73/78 and the IBC Code

Not evaluated

14. Regulatory information

14.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

Directive 96/82/EC: Update 2003.

Directive 96/82/EC does not apply.

Further information: Reserved for industrial and professional use.

14.2 Chemical Safety Assessment

For this substance a chemical safety assessment is not required

15. Other information

Information is referenced from other manufacturers.

For abbreviations and acronyms, see: ECHA Guidance on information requirements and chemical safety assessment, chapter R.20 (Table of terms and abbreviations).

This safety data sheet complies with the requirements of Regulation (EC) No. 1907/2006 and Regulation (EC) No. 2015/830. Label element according to Regulation (EC) No 1272/2008.

The information provided in this Safety Data Sheet is correct to the best of our knowledge, information and belief at the date of its publication. The information given is designed only as a guidance for safe handling, use, processing, storage, transportation, disposal and release and is not to be considered a warranty or quality specification. The information relates only to the specific material designated and may not be valid for such material used in combination with any other materials or in any process, unless specified in the text.
